EDUCATION & CERTIFICATIONS

Currently Learning for the Junior Penetration Tester (Ejpt) Certification from Ena (+250 Hours)

Hands On Labs (+300 hours) - TryHackMe ,HackTheBox, PortSwigger - 2023 - Now

- Actively participating in hands-on cybersecurity challenges and labs online, focusing on key areas such as penetration testing, ethical hacking, and vulnerability assessment.
- Gained practical experience in identifying, exploiting, and mitigating security vulnerabilities across various environments, including web applications, networks, and systems.
- Completed multiple learning paths and modules, earning certifications in areas like Web Application Security, Networking Fundamentals, and Linux Security, Penetration testing with more than 250 labs completed.

Course Cyber (+450 hours) Kernelios - 2024

- Cybersecurity : Network analysis, Web application security, malware analysis, endpoint security, and risk assessment.
- System Administration : Windows and server installation, Active Directory, Office...
- Networking : OSI/TCP models, IPv4/IPv6, VLANs, routing, and practical router/switch configuration.

High School Diploma & Bachelor's - Ironi Daled Tel Aviv

- Completed 12 years of education and successfully earned a high school diploma.
-

PROFESSIONAL EXPERIENCE

Helpdesk Tier 2 Support - Netspark - 2025 - Now

- Troubleshoot and diagnose software and network problems across various platforms, including iOS, macOS, Android, and Windows.
- Analyze logs, SSL certificates, URLs, IP addresses, and other web/application components to resolve technical issues.

Coding Instructor - Codii - 2024 - Now

- Taught foundational coding concepts to children using Scratch and Python, fostering a hands-on, interactive learning environment to enhance computational thinking.
- Guided students through project-based learning, resulting in completed animations and interactive games that demonstrated their understanding of coding principles.

Internal IT Support - La plateforme des energies - 2020 - 2021 And 2024

- Provided day-to-day technical support to employees, resolving hardware, software, and network issues to ensure smooth operations across the organization.
 - Troubleshoot and resolved issues related to office equipment, including desktops, laptops, printers, and network devices, minimizing downtime and increasing productivity.
-

Military Service

IDF - 2021-2023 - Sergeant – Infantry Fighter 08

- Served for 3 years in the Nahal Brigade, gaining extensive experience in combat operations and team leadership.
 - Successfully completed formation and training programs to attain the rank of Sergeant.
 - Developed strategic thinking and decision-making skills under dynamic conditions, contributing to the safety and efficiency of operations.
-

KEY COMPETENCIES

- Languages: Native French, Fluent Hebrew, Professional English.
- Proficiencies: Linux, macOS, Windows environments and Active Directory.
- Scripting & Programming: Python, Bash, PowerShell, JavaScript, HTML, CSS.
- Web Application Security: WEB1/2/3, OWASP Top 10 (XSS, SQLi, RFI, CSRF, LFI, IDOR, NOSQL, SSRF and more).
- Network Security: Protocols, LAN, WAN, Firewalls, IDS/IPS, VPNs, OSI/TCP, IPv4/IPv6, VLANs.
- Cryptography & Encryption: SSL, TLS, secure key management, basic cryptographic methods.
- System Administration & IT Management: Active Directory Management, Windows Server, Office IT (Word , Excel , PowerPoint , Outlook).
- Blue Team: Snort, ELK, Zeek, Brim, Wireshark, Sysmon, Splunk, Autopsy and more.
- Red Team: Metasploit, Burp, Hashcat, John, Nikto, Nmap, Bloodhound and more.
